Re: Corrections to RFP 14-3: Contra Costa On-Call Transportation Monitoring

Attention Prospective Consultant Proposers,

On December 23, 2014, the Contra Costa Transportation Authority issued RFP 14-3: Contra Costa On-Call Transportation Monitoring. Authority staff wishes to make two corrections to text in the RFP.

1. In Section 7 – Submittal Procedure (page 22), the RFP states that submissions are due “...by 3:00 PM on Wednesday January 28, 2015.” This conflicts with the due date of 3:00 PM on Monday, January 26, 2015, as stated on the RFP cover page and in the schedule on page 24. All submittals will be due by 3:00 PM on Monday, January 26, 2015.
2. The second paragraph under Task 1: Prepare MTC/INRIX Data Validation Report belongs under Task 2: Refine CMP and MTSO Monitoring Scope of Service (where it is also found), and should be ignored.

If you have any questions regarding these changes, please feel free to contact Matt Kelly at (925) 256-4730 or mkelly@ccta.net.
