

**I-680 AUXILIARY LANES (SEGMENTS 1 & 3) --- LANDSCAPING  
CCO's GREATER THAN \$25,000**

**(Administered by the Authority) (CCTA Project No. 1106)**

**Proj. CCO No. Description of Change Order**

1106 6 Gore Paving at Southbound I-680 On-Ramp from Eastbound Crow Canyon

This CCO was issued to compensate the contractor to construct concrete paving in the gore area at the junction of southbound I-680 and the southbound on-ramp from eastbound Crow Canyon Road in San Ramon. The gore paving work was directed by Caltrans to be included with this landscaping project and was a condition of approval for the Authority's encroachment permit to administer the landscaping project. The gore paving was inadvertently omitted from the design plans for the Authority's freeway auxiliary lanes project which was recently constructed. Therefore, this CCO work is being included with the current landscaping contract.

This CCO amount is \$51,632.19 and is funded from the project's Contingency funds.
