

**SR 4 (W): WILLOW AVENUE OVERCROSSING**

**PROPONENT:  
HERCULES**

**PROJECT NO:  
1503**

**DESCRIPTION:**

This project is a grade separation (safety) project that constructed a partial interchange at the intersection of Willow Avenue and Route 4. It included adding westbound Route 4 on/off-ramps at Willow Avenue and an eastbound Route 4 acceleration lane from Sycamore Avenue. Also included in this project is a new eastbound Route 4 on-ramp at Bayberry Avenue, to be paid for with local funds. This project provided safety and circulation improvements which will help reduce the accident rate and congestion in the vicinity of this intersection.

**STATUS:**

Construction completed in 1996.

**FUNDING SOURCES (\$ X 1000):**
