

## MEMORANDUM

To: Technical Advisory Committee Members

From: Accessible Transportation Strategic Plan Team

Date: June 17, 2020

Subject: Contra Costa Accessible Transportation Strategic Plan Outreach

Dear TAC members:

Thank you for all your efforts in assisting us with outreach for the plan! As of now we have received 448 surveys, including three in Spanish. We are also receiving comments through the website and are beginning to set up focus groups. We have budgeted \$100 per participant as a stipend for the organizations helping us set up focus groups, some or all of which could be forwarded to participants. Our first focus group will be with community college students who use disabled student services, and that will be today, June 17th.

We have also seen a number of social media posts from our partners. If your organization has made a social media post about the Plan, can you let us know? We are also still available to present about the Plan and receive feedback at any virtual meetings that are currently happening.

We are also still looking for contacts to help us attach paper surveys or flyers to meal deliveries. If you know someone at an organization who is packaging meals for delivery, please connect us.

Here is a map showing the geographic distribution of our surveys. As you can see, we are seeing representation from most of the County, but could use a boost in West and South County.
